Stay Safe During a Power Outage

Power outages don't happen often but it's a good idea to be prepared, just in case. Here are some quick safety tips to follow.

1. Use a flashlight rather than candle for light
2. Stay tuned to media at SDCountyEmergency.com
3. Turn off or disconnect appliances and electronics to avoid damage from electrical surges
4. Keep refrigerators and freezers closed

Supplies to keep on hand:

1. First aid kit
2. Flashlight with a supply of fresh batteries
3. Portable battery-powered radio or television so you can keep up with the news
4. A phone that does not require electricity
5. Manufacturer's instructions on how to manually open power-operated doors (e.g., garage doors)
6. Easy-to-prepare, nonperishable foods; such as packaged snacks and bottled water and juices
7. Wind-up or battery-operated clock
8. Manual can opener
9. Medication
10. Pet food

To view current outages, report an outage or prepare for an outage, visit our Online Outage Center at sdge.com/outage.
